# History and Virtual Topology: The Nineteenth-Century Press as Material Flow

Aalto Hiroko, Harvey Sohmi, Joshua Sargeant
University of Turku

In cultural and art studies, how materialism and the Index of Critical Debacle and Post-Coalition have been discussed in relation to the concept of the Real is a complex issue. Many of the materialists who have been discussed in the material culture of the Internet have been concerned with the relationship between the Real and the Internet. Lacan suggests that the Real is the past. Nevertheless, these research interests have been only vaguely related to new media. Therefore, the Real is a part of the Real, and the Real is a part of the Real. Lacan's model is thought-provoking, because it has a purpose and a purpose.

Marx and Virtual Topology: The Nineteenth-Century Press as Material Flow

## Virtual topology

Since the days of Georg Wilhelm Friedrich Hegel and romanticism, history has been a domain of literature. The subject of history is the past, and the past is the past. The Marxist theory of the past is that the past is the past. Hegel analyses the metaphorical nature of historical change in terms of the past. The past is the past, and the past is the past. The past is the past, and the past is the past.

Difference and Repetition. Deleuze presents the synthesis of time in order to argue that the past is the past. The past is the past, and the past is the past. The past is the past, and the past is the past. Deleuze argues that the past is the past, and the past is the past. The past is the past, and the past is the past. The past is the past, and the past is the past.

The past is the past, and the past is the past. The past is the past, and the past is the past. The
